COMPETITION ILLUMINATED RETICLE

COMPETITION RETICLE

The COMPETITION Reticle is designed to compensate for the trajectory of a specific ammunition.

Please note that the reticle is based upon ballistic information and may or may not produce these exact results based on a variety of variables such as:

- Actual Velocity (Ammunition manufacturers' information may not match the exact velocity out of your firearm. The best way to confirm velocity is to use a chronograph).
- Temperature
- Humidity
- Altitude
- Barometric Pressure
- Condition of firearm
- Scope mounting system
