Equipped with a selector switch that cycles through three settings; 2,000 lumen, 280 lumen or strobe, the **Sightmark SS2000 Flashlight** makes a great addition to any tactical or hunting kit. The unique strobe mode feature of the Sightmark SS2000 extends the applications to emergency situations as an alert or as a decoy to distract and disorient targets. The Sightmark SS2000 Tactical Flashlight is equipped with two rechargeable batteries, a battery recharger, a weapon mount, on/off push button, pressure switch and three filters. The unit is recoil resistant, waterproof, lightweight and protected by Sightmark's limited lifetime warranty. This is the perfect addition to the award winning Triple Duty Series- shooting, hunting, tactical as well as for camping, hiking, home use and vehicle emergencies.
