The **Sightmark RC280 Triple Duty Tactical Flashlight** is equipped with a high intensity 280 Cree® LED to light the path in the darkest nights. Constructed with aircraft grade aluminum, the Sightmark RC280 Triple Duty Tactical Flashlight is built to last. The RC280 tactical flashlight is waterproof and corrosion resistant so you can use your flashlight under any weather conditions.

The Sightmark RC280 is rechargeable and comes with plugs for both United States and European outlets. In emergency situations the rechargeable battery can be replaced with CR123 batteries to keep you going longer. This flashlight durable so it stands up to powerful rifle recoil. Weapons mounts are sold separately allowing the unit to be rifle mounted. This product is also equipped with a lanyard to keep your hands free and three filter colors to fit any situation. This is the perfect addition to the award winning Triple Duty Series- shooting, hunting, tactical as well as for camping, hiking and for vehicle emergency.
