

DesignateIR-V™ FDE Three Beam Laser / Green Visible Laser / Infrared Laser / VCSEL IR Illuminator / All New ARISAKA Defense Ambidextrous Fire Button / Arisaka Aluminum Mounting Plate / CQB IR Diffuser Bikini Cover / MADE IN U.S.A

Made in the USA, the Designate IR-V laser is the smallest and lightest, three beam, tactical rifle laser available today. Built from synthetic nylon, this laser is designed to withstand recoil and will perform in all weather conditions. The Designate IR-V's set-it, forget-it zero allows the user to zero the visible laser once. Then, both laser sights are precisely co-witnessed for accuracy. The laser's small footprint lies below the weapons line of sight and allows the user to effortlessly switch to iron sights. The user controls have been carefully engineered for minimal drag, reliability, and ease of use. The newly added illuminator utilizes VCSEL technology providing illumination with exceptional distance and beam quality. Comparable products cost well over \$3000.00. The Designate IR-V offers the end user options that they can afford. Simple user controls and a small footprint are just a few of the reasons to own one. Best of all, US Night Vision has introduced this new laser at an extremely competitive price point. The included CQB Filter diffuses the beam and provides perfect illumination for close up / indoor work where long-range illumination is not needed.

Add a Surefire M640V-PRO Vampire Kit (Visible / Infrared) Custom US Night Vision Logo Light w/ DS00 Tail cap and SR07-D-IT Dual tape switch to run light and laser. FDE. *Only \$575.00*

Specifications:

- Green Visible Laser/ Infrared Laser / VCSEL Illuminator w/ Diffuser Filter
- Innovative Ambidextrous Fire Button Placement
- Green / Infrared / VCSEL Laser Operation
- MIL-STD Crane Remote Switch Connector
- Remote Pressure Switch (Optional)
- Arisaka Defense 1913 Picatinny Rail Mount
- Arisaka Defense Fire Control Button (Momentary/Constant)
- Easy To Use Selector Switch Vis/Off/IR/IR & Illuminator

- Intuitive "User Only" Activation Light
- Windage / Elevation Adjustable

Size / Dimensions:	(L) 3.8" x (W) 2.9" x (H) .5"
Weight (w/Battery):	6.3.oz
Battery:	(1) CR123
Battery Life:	> 5 hours
Environmental	IP68
Warranty	2 years
Visible Laser:	Green
Output Power:	> 5.0 mW Class 3R
Beam Divergence:	.5 mrad
Wavelength:	520 nm
Range:	> 50 m Daylight
IR Laser:	Infrared
Output Power:	> 2.5 mW Class 3R
Beam Divergence:	.5 mrad
Wavelength:	830 nm
Range:	> 1000 m
VCSEL Illuminator:	Infrared
Output Power:	> 130 mW Class 3R
Beam Divergence:	3 Degree
Wavelength:	850 nm
Range:	> 300 m
