

CROSSFIRE® II

3-9x50 STRAIGHT-WALL RIFLESCOPE

ELEVATOR PITCH:

The Crossfire® II 3-9x50 Straight-Wall is designed to maximize the performance of popular straight-wall cartridges, like the .450 Bushmaster, 350 Legend, and .45-70 Government with a Bullet Drop Compensating (BDC) reticle optimized for these classic rounds.

WHY DID WE MAKE THIS SCOPE?

Several Midwestern states have passed laws allowing hunters to use straight-walled centerfire rifles during firearms seasons that before were reserved for muzzleloaders and/or shotguns.

WHAT IS NEW TO THIS OPTIC?

The Straight-Wall BDC Reticle is optimized for popular straight-wall cartridges including .450 Bushmaster, 350 Legend, and .45-70 Government.

WHAT ARE THE TOP USES FOR THIS PRODUCT?

Hunting with straight-wall cartridges.

WHAT IS A STRAIGHT-WALL CARTRIDGE?

A straight-wall cartridge is a bullet casing with straight walls down to the projectile. Bullets fired from a straight-wall cartridge often fly slower and for a shorter distance than bullets fired from a bottleneck-style casing.

STRAIGHT-WALL

BOTTLENECK

WHERE ARE STRAIGHT-WALL CARTRIDGES REQUIRED?

Visit the U.S. Fish & Wildlife Service's website for links to state specific regulations.

HOW DOES THIS UNIT COMPARE TO OTHER MODELS?

Outside of the Straight-Wall BDC MOA Reticle, this scope includes all the same features and design elements as the Crossfire® II 3-9x50 riflescopes.

WHERE IS THIS UNIT MADE?

China.
