MAKE FIRST STRIKE SECOND NATURE.

Strike Eagle® riflescopes offer even more features in an updated body, making them ideal for value-minded shooters who need an optic that looks as good as it shoots. A true 1x on the low end adapts to a wide range of scenarios, letting shooters rapidly engage targets from point-blank to extended ranges. To maximize that versatility, you get a glass-etched, illuminated AR-BDC3 reticle, which aids in rapid shooting at near and far distances while providing holdover and ranging references from 0-650 yards. Plus, a thread-in throw lever helps you to set your magnification even faster, shot after shot.
