

MINI N-SEAS BRIDGE

BINOCULAR BRIDGE SYSTEM

PRODUCT OVERVIEW

The Wilcox Binocular Bridge for the N-SEAS integrates currently fielded mounting capabilities of the N-SEAS Night Vision Goggles with Wilcox’s standards for firm attachment to the Wilcox G24 Helmet Mount. The Binocular Bridge for the N-SEAS features adjustments to customize the position of the Night Vision Goggle for proper eye position and provides a maximum low profile position to the helmet in the stowed and collapsed position.

FEATURES & BENEFITS

- Attaches to a variety of helmet styles.
- Left and Right arms are removable for single or dual optic use
- Collapses in stowed position for added low profile
- Light weight and lowest profile design available with field proven dovetail attachment system
- Optional G24 Mount allows NVG breakaway under stress conditions.
- Aluminum construction for increased durability over currently fielded products
- Quick Disconnect mounting and dismounting to the Helmet Mount Interface and Goggle
- Threaded connectors allow for easy mount and dismount of the arm assemblies
- Locking Cam Levers provides rattle free attachment to the goggle.
- Lock Stops allow optic angle to be secured at a variety of stops.
- Friction Pivot provided to secure the tension of the mounting arm.
- Stowable Magnet Tubes enable the auto-off function of the goggle
