

# 6x20 mm Laser Rangefinder

## 1200 yd (game)

WINCHESTER® SUPREME® LASER RANGEFINDER	6x20 mm
MAGNIFICATION	6X
OBJECTIVE LENS DIAMETER	20 mm
OCULAR LENS DIAMETER	14 mm
MINIMUM RANGE	5 Y
MAX REFLECTIVE RANGE	2000 Y
RANGE (BUILDING)	1200 Y
RANGE (TREE)	900 Y
RANGE (DEER)	750 Y
INCLINOMETER	± 60°
BATTERY TYPE	CR2
DISPLAY	RED LCD
TARGETING MODES	Normal, First, Last
RANGING MODES	HCD, LOS
SIZE	3.86" x 3.07" x 1.42"
WEIGHT	6.17 oz with battery / 190 g
EYE RELIEF	14 mm
ANGULAR FIELD OF VIEW	6.5°
LINEAR FIELD OF VIEW	114 m @ 1000 m, 114 y @ 1000 y
IP RATING	IPX4
MATERIAL	PPS, PC+ABS, Rubber, Optical Glass

When your hunt demands precise ranging over vast distances, Winchester Optics laser rangefinders deliver the performance and durability needed in the field in the most demanding conditions. The Winchester Ranger Rider HD2000 laser rangefinder offers a maximum range of 2,000 yards, with 750 yards on game.

Featuring 6x magnification and an HD optical system, it provides enhanced clarity and detail for spotting game at long distances. The red display ensures visibility in low light conditions, while three target modes (Normal, First, and Last) and two ranging modes (HCD and LOS) adapt to any hunting environment.

### Key Features
